

# Global Tape Forum pre-meeting JATMA Presentation

JATMA  
Kensei Takahashi

# 1. JATMA organisation

- Chairman: Manabu Kaihara (Oji Tack President )
- Regular member: 12 Japanese PSA tape manufacturers
  - Sekisui chemical, Nichiban, Maxell, Teraoka, Okamoto, Oji Tac, Kamoi, Kikusui tape, Denka, Rinrei tape, Kyowa, Konishi
- Supporting member: 78 Adhesive tape relative companies

Secretary: Kensei Takahashi

## JATMA regular member company 7 years ago

DIC 株式会社

## JATMA regular member decreased 6 from 2017

2017 JATMA consisted of 18 regular members.

2018 Uni tape changed membership to a supporting member.

2019.Kuramoto Corp changed as well Uni,

2020 3M Japan withdraw ,Lintec changed membership to a supporting member/

2025 Nitto and DIC changed membership as well.Nitto was one of original member when JATMA established in 1961.

Now JATMA consist of 12 regular members , however Konishi is planed to change membership in 2026

**What is worth for being JATMA regular member?**

# Why changed member?

## By the company management policy

- The adhesive tape business is no longer a core part of the company.
- The domestic sales ratio is low, and motivation for Japanese industry's association activities is not increasing.
- The cost-effectiveness is too low

We must reform it into an attractive industrial organisation

# Reform proposal

- Review of membership fees

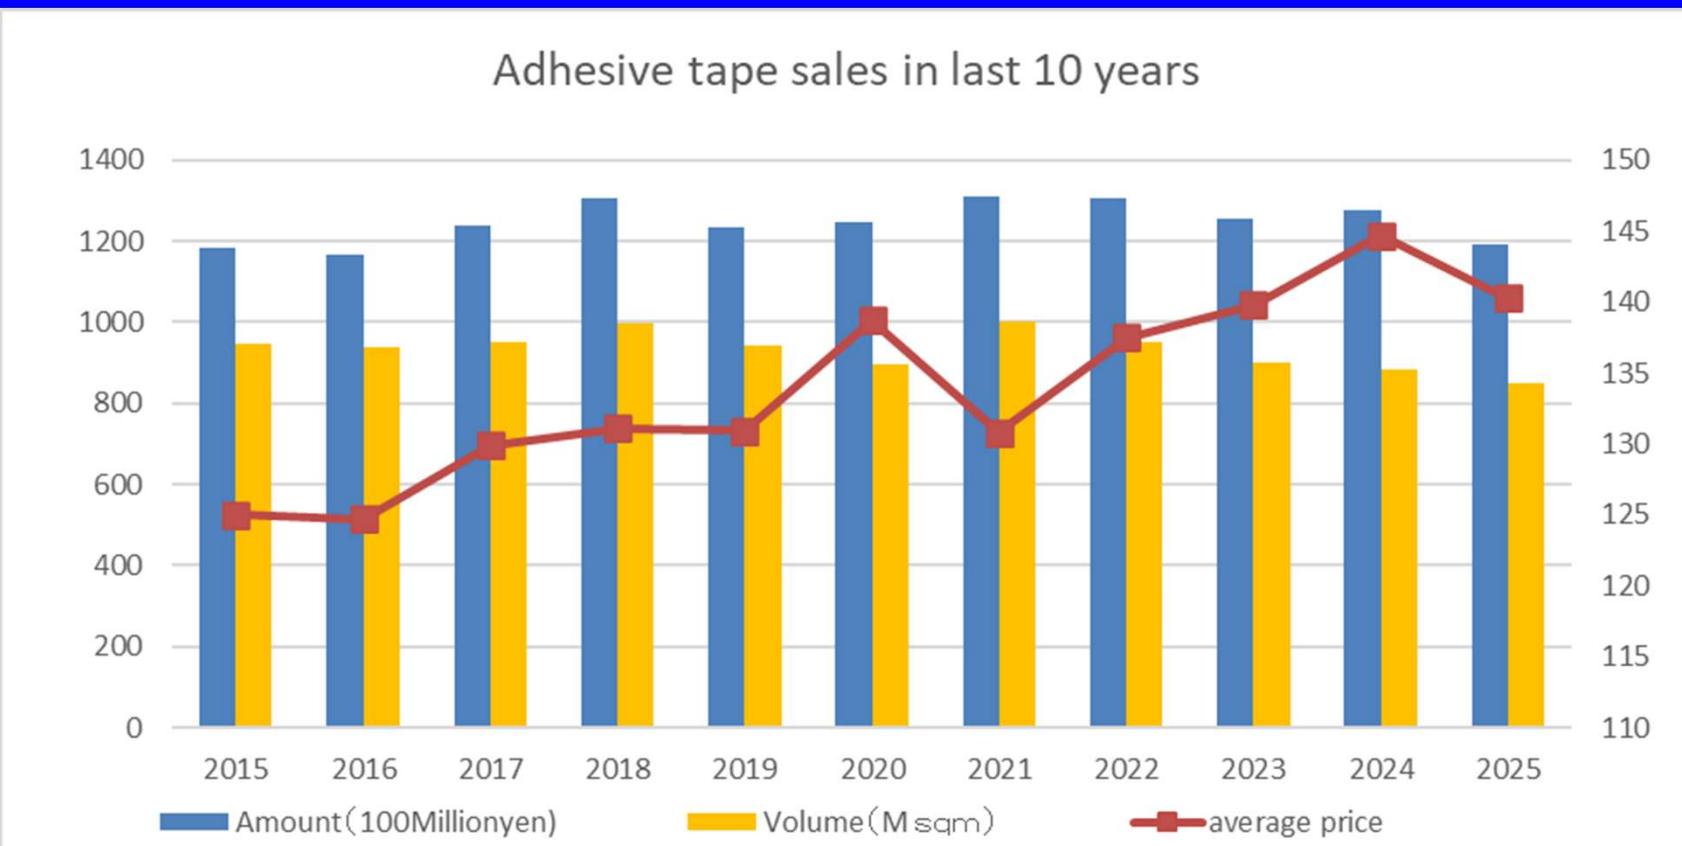

**What can we do to expand the adhesive tape market?**

<What we have done so far>

1. Creation and revision of Japan Industry Standard on adhesive tape
2. Certification testing system for residential waterproofing tape
3. Participation in GTF

**I would like you to give advice and discuss on coming GTF 2026 in Tokyo.**

## 2. PSA tape sales from JATMA Statistics

2021 Sales volume is 1001 millions square meters, and declining gradually over the last 5years

2021 Sales value is 1311billions yen, highest over the last decade

Not only sales volumebut also sale value, average price are going down in these days.

### 3. GTMC advancements, current and next priorities

- JATMA defined environmentally friendly tape as JIS Z0109 term of Adhesive tape
- A method for measuring toluene and xylene residues on adhesive tape and their standards was developed.

# 4.GTF 2026 Tokyo

**Thema : Advanced technology to the sustainable future**
